### **E. *Lexicon***

The lexicon that will be presented in class will be linked to content-oriented topics and will reflect basic technical terminology. The purpose is to provide students with the necessary, although basic, terminological knowledge they will need in more advanced academic studies in English.

### **F. *Autonomous Learning***

Autonomous Learning will help students understand that they can manage their own studies on the basis of personal interests, study patterns and abilities. Learners are encouraged to assume a leading role when taking care of their own learning and they are, therefore, encouraged to decide what to practice, the rhythm of their study, the strategies to adopt. In other words, they should become aware of all their learning actions. Self-study activities in English are offered on the CLA website <http://cla.unical.it>, where material is provided in order to help develop linguistic skills in the following fields: academic, business, social, economic, scientific, educational fields. All this takes place through interactive programs, videos on current cultural issues, and music videos that help learners develop a pleasant musical approach. Students can visit the CLA website <http://cla.unical.it> (self study area) to discover the carefully selected material for learners interested in improving their language knowledge autonomously.

### **G. *Objectives***

Students need to achieve the B1 Level (CEFR), as shown by the descriptors (Council of Europe 2001) for A2 and B1 below:

#### **General language (synthetic) descriptors**

A2	Can understand sentences and frequently used expressions related to areas of most immediate relevance (e.g. very basic personal and family information, shopping, local geography, employment). Can communicate in simple and routine tasks requiring a simple and direct exchange of information on familiar and routine matters. Can describe in simple terms aspects of his/her background, immediate environment and matters in areas of immediate need.
B1	Can understand the main points of clear standard input on familiar matters regularly encountered in work, school, leisure, etc. Can deal with most situations likely to arise whilst travelling in an area where the language is spoken. Can produce simple connected text on topics which are familiar or of personal interest. Can describe experiences and events, dreams, hopes & ambitions and briefly give reasons and explanations for opinions and plans.

## General language (detailed) descriptors

	<b>RANGE</b>	<b>ACCURACY</b>	<b>FLUENCY</b>	<b>INTERACTION</b>	<b>COHERENCE</b>
<b>A2</b>	Uses basic sentence patterns with memorised phrases, groups of a few words and formulae in order to communicate limited information in simple everyday situations.	Uses some simple structures correctly, but still systematically makes basic mistakes.	Can make him/herself understood in very short utterances, even though pauses, false starts and reformulation are very evident.	Can answer questions and respond to simple statements. Can indicate when he/she is following but is rarely able to understand enough to keep conversation going of his/her own accord.	Can link groups of words with simple connectors like "and", "but" and "because".
<b>B1</b>	Has enough language to get by, with sufficient vocabulary to express him/herself with some hesitation and circumlocutions on topics such as family, hobbies and interests, work, travel, and current events.	Uses reasonably accurately a repertoire of frequently used "routines" and patterns associated with more predictable situations.	Can keep going comprehensibly, even though pausing for grammatical and lexical planning and repair is very evident, especially in longer stretches of free production.	Can initiate, maintain and close simple face-to-face conversation on topics that are familiar or of personal interest. Can repeat back part of what someone has said to confirm mutual understanding.	Can link a series of shorter, discrete simple elements into a connected, linear sequence of points.

## Academic language (synthetic) descriptors

**Note: For the detailed descriptors, please, refer to the European Portfolio University of Calabria (2003- validation code 43)**

		<b>A 2</b>	<b>B 1</b>
<b>C O M P R E H E N S I O N</b>	<b>Listening</b>	Can understand the global content of a conversation taking place in the classroom or during group work. I can understand the main points of short and simple messages concerning my field of study	Can understand the main points and identify detailed information in a speech related to a specific context.
	<b>Reading</b>	Can understand the global content of a specialised text from the title and the headings and I can check my prediction through reading. I can understand the content of a short and simple narrative text.	Can understand the global message of in a specific text and identify the typical textual structure. I can understand the meaning of unknown words using a monolingual dictionary.

<b>S P E A K I N G</b>	<b>Oral Interaction</b>	Can answer questions related to specialised texts by using simple expressions. I can interact on simple topics during the lesson or group work.	Can formulate appropriate questions and answers on topics related to the lessons.
	<b>Oral Production</b>	Can describe my academic or working experience using simple expressions.	Can describe the topic of the lesson using simple and coherent sentences. I can express opinions regarding the topic of the lesson.
<b>W R I T I N G</b>	<b>Written production</b>	Can take simple notes during the lesson. I can write a short and simple message (e.g.: memo, fax, e-mail).	Can take notes of the most relevant information of an oral or written communication and I can write a simple text according to a given model (e.g.: CV).

#### **G. CLA-OLA Level Test B1 level (CEFR, Council of Europe 2001, updated 2018)**

Students must pass a computer based Test. See the Table below for details.

#### **A. Listening, Reading and Writing sections**

Tests and content will refer to the following academic sectors: Social Sciences, Science, Engineering, Humanities.

<b>LISTENING SECTION</b>			
<b>Task and items</b>	<b>Description of text and number of items</b>	<b>Target skills</b>	<b>Points</b>
<b>Listening comprehension: Part 1</b>	Short monologue (approx. 250 words/ approx.2 minutes).  <b>10 items</b> Multiple choice A B C. 	Language use: Sentence transformation	5 points
	Guided writing: Text completion	10 points
	55 points	
Total	75 points	

### **B. Speaking Competence Test (SCT)**

The **Speaking Competence Test** is an optional but highly recommended test for students of all Degree Courses<sup>1</sup>. The SCT gives students the opportunity to achieve a final Level of competence beyond B1 (CEFR, Council of Europe, 2001) if their performance is accurate and fluent.

Students are asked to show ability in the following aspects:

- *Carry out a short conversation on personal study skills, cultural interests and future plans;*
- *Express opinions on a topic covered in class (the topic will be selected at random from a set of many);*
- *Provide a short description of a photo selected at random from a set of many;*
- *Express opinions on the meaningfulness of self-study activities;*
- *Self-assess their end-of-term language competences.*

---

<sup>1</sup> The SCT is compulsory for students belonging to the Department of Civil Engineering as per departmental request.
