

THE ALTERNATIVE GLOBALISATION **WE** WANT

Globalisation **calls** for organisations which can **counterbalance** it.

*Citizens who are **fully-informed** and **aware of their rights** are best placed to ensure effective social and economic rights.*

Every international agreement, notably in the commercial and economic domains, must respect human and civil rights.

*The globalisation we want should respect the **Universal Declaration of Human Rights**.*

Whenever necessary we defend these rights through the courts.

*We aim to extend human and civil rights to **the protection of the environment** and sustainable development. We want to see ethical concerns placed at the centre of biotechnological developments.*
